Dear Mr Athorn

### **CLUB PERMIT SCHEME**

I refer to your letter of 22 May 2002, concerning the information being presented to car clubs by a police officer from the Bendigo Traffic Management Unit. I understand that the information being presented that is of most concern to your members relates to the issue of special use authorisations. The Association of Motoring Clubs has also raised this matter with my office.

VicRoads has received advice on this matter, and met with the Victoria Police to resolve this issue. VicRoads and the Victoria Police have agreed that the police will issue an interim instruction for special use authorisations to be accepted, and VicRoads will commence the process to amend the relevant regulations so that special use authorisations are specifically recognised within the regulations that govern the club permit scheme.

I trust that the above information is of assistance to you and your members.

Yours sincerely
